

CS6W50NT Career Development Learning (CDL) Form

Student

Student Londonmet ID: 23049161

Student Name: Anish Niraula

College E-mail ID: np05cp4a230182@iic.edu.np

Mobile No: 9826998418

Student's work/placement address: Code IT Appsware, Prithivi Path, Dharan

Employer

Employer Name: CodeIT AppsWare

Employer's Address including department: CodeIT AppsWare, Prithivi Path, Dharan, Software Development Department

Company Supervisor's Name and Position: Sudam Shrestha, Full Stack Web developer

Company Supervisor's Tel No: 9704508525

Company Supervisor's email address: sudamshrestha939@gmail.com

Career Related Learning Activity

Start Date: 22nd June 2025

End Date (if known):

Your role at the placement (position): Full Stack Intern

Brief description of your work at the placement: I will focus on designing responsive user interfaces in React, developing robust backend solutions with Node.js and MongoDB, integrating APIs, and gaining expertise in testing, debugging, and deployment processes.

Proposed learning outcomes from the Career-Development Learning Activity:

Learning Outcome ID	Learning Outcomes	Activities and Tasks	Evidence
LO1	Research Skills	I will explore and analyze current trends and best practices in full stack development, focusing on frontend optimization and backend scalability using MERN stack technologies.	I will provide research reports, and technical blogs, bookmarked resource and PDFs, project documentation with references, screenshots of learning platforms and learning journals.
LO2	Effective Communication	I will actively participate in team meetings, write clear documentation, and offer suggestions to enhance the team's design and strategies.	I will provide chat logs of messaging apps like Slack and WhatsApp, Emails showing communication with team, written project updates, and meeting screenshots and feedback from team members and supervisors, documented feature requests and comments on GitLab merge requests.
LO3	Team Collaboration	I will work on group projects, participate in team brainstorming sessions, provide project updates through GitLab's and Trello, and contribute to collaborative problem-solving.	I will provide screenshots on Trello tasks and updates, Gitlab activity, notes or recorded meetings, shared documents and files, feedback from team members and supervisors to show how I collaborated with others during the project.
LO4	Time Management	I will set weekly sprint goals, prioritize tasks based on deadlines, and reflect on productivity to improve efficiency.	I will provide timesheets, Trello progress reports, attendance reports, and weekly reviews and tasks logs, journal reflection on time allocation and adjustments.
LO5	Front-End Development	I will design and develop user-friendly and responsive interfaces using technologies like HTML, CSS, and JavaScript, and React. I will create smooth and visually appealing web pages that work well on different devices.	I will provide examples of user interfaces designed on Figma with its link or screenshots, code segments, GitLab repos links, screenshots of my commits and codes on VS Code, browsers testing reports for responsiveness.

LO6	Version Control	I'll be using GitLab to keep track of my code updates, create and manage branches, work together with teammates on merging code, and solve any issues that come up during the process.	I'll include my GitLab profile with a list of my commits, branches and merge request, screenshots of merge conflicts and resolutions, notes on branching strategy and workflows, peer review feedback on merge request.
LO7	API Integration	I will work with third-party APIs such as payment gateways, maps, or SMS services. I will handle request and response formatting, authentication, error handling, and ensure proper API security practices such as using tokens and rate-limiting.	I will share Api documentation and postman collections, Logs of API request/responses(success & error), code snippets showing API handling and error checking, security practices like token usage and rate-limiting logs.
